1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- ♦ interacting with a user's subscription card for providing users access to the live-action broadcast event (362; fig.8);
- ♦ interacting with a user's bank card to read data stored thereon (708);
- ♦ communicating data read from the user's bank card to a communications server connected to a bank server holding the user's bank account for transferring in response to said data credit from

the user's bank account to a gaming account at the central gaming computer means in order to permit gaming in relation to the live-action broadcast event (method steps 13-24);

◆ wherein the data communicated to the communications server is in the form of an electronic certificate generated by the bank card in response to transaction data tabulated thereto (col.94, lines 12-30).
